

NATIONAL CENTER FOR TRANSPORTATION SYSTEMS PRODUCTIVITY AND MANAGEMENT

TRANSPORTATION WEEKLY SPEAKER SERIES

THURSDAYS AT 11 AM MASON BDG, RM 1133

Mark your calendars for a weekly speaker series each Thursday at 11 am throughout the academic year on the Georgia Tech campus. The purpose of this speaker series is to foster discourse and information exchange between academics, students, and transportation professionals, both on the local and national levels. Topics will include research at Georgia Tech, local transportation issues, and broader topics of interest to the transportation community.

Advancing Women in Transportation is pleased to present:

**February 27, 2014:
Kyung-Hwa Kim**

Kyung-Hwa Kim
Performance Analysis
and Monitoring
Manager at the Atlanta
Regional Commission

Kyung-Hwa Kim is a Sr. Principal Planner at Atlanta Regional Commission, Atlanta Georgia. Before she joined at ARC, she worked at Metro in Portland, Oregon for 20 years as a modeler. She joined ARC five years ago as a Performance Analysis and Monitoring section manager. Her 20 years of experience at Metro covers from simple data analysis to complicated activity model development. Now she manages Air Quality, Congestion Management Planning, Safety, Performance measure, and Project Prioritization at ARC.
